**An Appeal**

8<sup>th</sup> April 2018

We appeal to the students of JNU to allow the functioning of the Schools and Centres. As a leading University, JNU needs to complete all the academic programmes in time and as per the University academic calendar. While students have the right to stage peaceful protest, we urge the students not to block entry & exit of students, faculty and staff into the School/Centre buildings. Given the urgency of the declaration of JNU Entrance Examination results, lockdown of buildings must not continue. This actually goes against the interests of current and future students. The applications of current students, several financial requests and other official communications are not being processed from the locked Schools/Centres. We request the student community to bring normalcy in the campus so that many issues can be discussed at various levels.
